Amway is here to help you in the kitchen with its wonderful iCook stainless steel, non-stick frying pan, and hand care bundle. The DURAMIC non-stick coating system is PFOA-free (perfluorooctanoic acid), which means that it prevents food from sticking to the pan for longer than other non-stick coatings, making it suitable for a variety of cooking methods. To complement the frying pan, Amway is offering a hand wash and lotion set. Its new G&H range includes Concentrated Liquid Hand Soap which deep-cleans hands, removes impurities, and neutralises odours without drying out your skin, while the hand cream leaves your skin feeling moisturised for up to 24 hours, even after washing.
